Notice of intention to reenter and I

and deepen old well. DATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

July 16, 1959

Well No. 1 E. A. Ransom is located 820 ft. from N line and 660 ft. from E line of sec. 5

NE 1/4 5 35 North 10 East 107

(1/4 Sec. and Sec. No.)

(Twp.)

(Range)

(Meridian)

Wildcat

(Field)

San Juan

(County or Subdivision)

New Mexico

(State or Territory)

The elevation of the derrick floor above sea level is will furnish later ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to reenter the El Paso Natural Gas Products Co. No. 1-R Ransom dry hole and deepen from old total depth of 5761' to about 6700' to test the Dakota formation. If commercial production is indicated we propose to run 5 1/2" casing through the potential pay, perforate casing, and sandfree. If commercial is not indicated we propose to return the hole to its present condition by resetting the cement plugs.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company E. P. Campbell

Address 7111 Central St

Albuquerque, New Mexico
