RE: Water Injection Wells Failing Their MIT's

Dear Diane:

The following wells failed their MIT's when tests were conducted on October 18, 1995:

| | | |
|---------------------|--------------|--------------|
| Carson Ut SWD 24 #1 | B-24-25N-12W | 30-045-13301 |
| Carson Ut SWD 20 #4 | C-20-25N-11W | 30-045-05314 |
| CBU WI #54 | E-05-25N-12W | 30-045-05556 |
| CBU WI #13 | A-08-25N-12W | 30-045-05509 |
| CBU WI #62 | E-09-25N-12W | 30-045-05490 |
| CBU WI #78 | N-06-25N-12W | 30-045-25345 |

According to New Mexico Oil Conservation Division rules, any injection well failing its MIT will immediately be shut-in and not allowed to commence injection until repaired, retested or P&A'd. Also if wells are not brought into compliance within one year, the wells can lose their Permit to Inject and will have to be repaired and repermited.

Diane, could you please send me by letter, what Giant's intention is on each of the referenced wells?

Please feel free to contact me at 334-6178 if you have any questions.

Sincerely,

Ernest Cardona
Deputy O&G Inspector
