Attention Mr. A. R. Kendrick

Gentlemen:

Shell Oil Company's Carson Unit 12X-13, a proposed Pictured Cliffs well located in Section 13-T25N-R12W, appears to be named correctly as all formations in the Carson Unit are unitized. The gas has been dedicated to El Paso. If additional information is required, please contact us.

Yours very truly,

R. Planty
Division Operations Engineer
