13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

The operator has drilled a Fruitland Coal well in this spacing unit. Our plan is to return this well to production. Recent swabbing operations have not been successful in keeping water from killing gas flow. We will install a pump jack to determine if removal of water will allow economic production.
