Dear Mr. Seale:

Our records indicate that the wells listed above are inactive and not in compliance with Rule #201.B.

Please submit plans to bring these wells into compliance within 30 days. Review Rules #202 and #203 for the necessary filing requirements to plug and abandon or temporarily abandon these wells. .

Feel free to call me at 334-6178, ext 12, if I can be of any help.

Sincerely,

Bruce Martin
Deputy O&G Inspector

☐ Water Shut-Off
☒ Conversion to Injection
☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Central Resources, Inc. will convert the well to injection during 1999 in accordance with permitted regulations as follows:

- Production equipment will be removed.
- The casing and hole will be gauged and cleaned to plug back total depth of 4947'.
- Perforations will be cleaned and the formation stimulated with acid.
- A coated packer and internally coated 2 3/8" tubing will be run to 4673' which is less than 100' above the top perforation.
- The tubing casing annulus will be circulated and loaded with inhibited oxygen free water.
- The packer will be set and the casing integrity will tested.
- Notifications will be made prior to any operation requiring the opportunity for witness by officials.
- After successful installation and testing, the well will commence injection.

* MUST ReApply for Injection Permit APPROVAL

14. I hereby certify that the foregoing is true and correct
