(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Pursuant to approval for water injection, Giant Exploration & Production Company intends to convert this well to a Lower Gallup water injector for pressure maintenance. This well's perforations (4812' - 4830') will be acidized with 500 gallons of 15% HCl. Water injection will occur through 2-3/8" tubing set with a tension packer at 4760'. Prior to commencing injection, this well's casing will be pressure tested and any leaks will be repaired by cement squeezing.
