RE: NTL-4A, Permission to Vent oil well gas.

Berry Federal #1
1980' FWL & 990' FNL
Sec 11-T25N-R13W
San Juan Co., N.M.
Lease No: NM-53936-A

Dear Ken,

Southern Union Exploration (SX) requests permission to continue venting casinghead gas on the above referenced oil well. The volume to be vented daily is approximately 15 MCFG.

SX is still negotiating a gas pipeline right-of-way with the Navajo Indian Tribe and their associates. It is uncertain how long this process of negotiation may take. If anything further is required, please so advise.

Sincerely,

Katherine F. Folk
