13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If we directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

It is requested the subject well remain in the shut-in status. We are planning to try a stimulation technique on other Fruitland Coal wells which may have application to this well. The Bisti Coal 18 #1 has a good coal and is surrounded by better performing wells. We will submit our plans to return the well to production or plug and abandon the well by July 1, 1997.
