REFERENCE: Devon Neilsen Well No. 1
Surface Location

Dear Mr. Catanach:

Giant Exploration & Production Company wishes to advise you of the actual surface location of the referenced well. That location is:

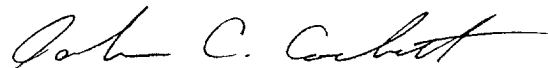

100' FSL and 193' FEL
Section 32, T25N, R11W
San Juan County, New Mexico

You will note that this location differs slightly from those footages detailed in Administrative Order DD-47 dated November 1, 1990. Topographic constraints on the north side of the location and wilderness area restrictions on the south necessitated moving the location in order to position the drilling rig and still maintain a common well pad for this well and the Debra Geiger Well No. 1.

If you should have any questions regarding this, please do not hesitate to call.

Sincerely,

GIANT EXPLORATION & PRODUCTION COMPANY

John C. Corbett
Executive Vice President
