13. Describe Proposed or Completed Operations (Clearly state all pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Giant Exploration & Production Company requests an additional year of shut in on the subject well. This well is in the initial stage of dewatering and has high operating costs. Giant is in the process of designing a water flowline to dispose of the water at one of our approved facilities. Eliminating the water hauling will make this well economic to operate. Giant will submit a Sundry Notice to you as soon as the well has been reactivated.
