13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

The Pinion #1 was put on production in May 1998 and shut in August 18, 1998 due to high water production with no gas production. It was tested again in November 1999 for the month of November. Presently shut in do to high produced water expenses with no gas production.

Request twelve month continuation to Temporarily Abandon the Pinion #1 until the disposal well has been drilled to dispose of produced water. Coleman Oil & Gas is waiting on the core analysis from the Juniper #11 prior to drilling the Disposal Well. Core analysis is expected to be finalized some time after January 2002.
