May 19, 1955

Mr. Gerald G. Russell
Oroco Oil & Gas Co.
721 San Mateo, NE
Albuquerque, New Mexico

Dear Mr. Russell:

Reference is made to your letter of transmittal dated May 17, 1955 containing three copies of N.M. OCC gas well plats for the T.J. Foster #1 Foster well in the NW $\frac{1}{4}$ Section 17-26N-7W, Rio Arriba County, New Mexico

I am returning these plats with notation made on the first copy outlining the procedure and information required on the plats before they can be accepted.

Please be advised that we have on hand copies of satisfactory plats for the #1 Foster (NW 17-26N-7W), but need plats for the #2 Foster, (NE 17-26N-7W.) A "Shut-in notice" on the #2 Foster was sent on 3-4-55, it being delinquent on filing of gas well plats.

Also enclosed please find 5 copies of NMOCC gas well plats with notation on the face copy as example for filing procedure on the #2 Foster.

Please file these plats (three copies) with us, as per example and we will take the necessary measures to relieve the shut-in order on the #2 Foster and see that an allowable is assigned to this well.

Yours very truly

S.V. Roberts
Engineer, District #3

SVR:ks
Encls, NMOCC gas well plats
