ALBUQUERQUE, N. M.

May 23, 1955

Mr. S. V. Roberts, Engineer, District #3  
New Mexico Oil Conservation Commission  
Aztec, New Mexico

Dear Mr. Roberts:

Please find enclosed plats for the Foster #2 in triplicate, and made out to your instructions.

My sending you the plats for the wrong well was not entirely my fault, however. In your letter to us on the 11 of April, 1955, you state that a Shut in notice was sent to the transporter on the T. J. Foster #1 Foster well as you did not have a Gas Well Plat on file showing the dedicated acreage. So I merely followed your instructions on that matter.

However, I hope these plats clears things up, because things are becoming very confused.

Very truly yours,

*Gerald G. Russell*
