Farmington, New Mexico*

Dear Sir:

We have received copies of Federal Notice of Intention to Drill, along with Form C-128 on your #1 Betsy well located 471 feet from the South line and 666 feet from the West line of Section 29-27N-1E.

This well is located on a partial section containing, according to our calculations, 24.3 acres. We are, therefore, correcting your plats to show that the well has dedicated 24.3 acres. If, after securing production, you are desirous of forming a larger unit for this well it will be necessary that a non-standard unit be formed after hearing. It would appear that the most feasible way to do this would be to combine the two partial forties in the south end of this section to form a unit of 48.6 acres. This would then leave two standard forties on the west side of the section. If you have any questions regarding the above, please contact us.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
