ALTERING CASING

ABANDONMENT*

(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Per your request for plans for this zone, this well has been shut in since July 1986. Because it is uneconomical to produce as completed, and downhole commingling is also economically unfeasible, this well will be temporarily abandoned until the Dakota zone is depleted.

This well is being temporarily abandoned in lieu of permanent abandonment of this zone to avoid the possible damage to the Dakota formation during plugging operations.
