Ceases: This form is designed for submitting a complete and correct well completion report and log on all types of lands and leases to either a Federal agency or State agency, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office. See Instructions on Items 22 and 24, below, regarding separate reports for separate completions.

If one filed prior to the time this summary report is submitted, copies of all currently available logs (different geologic, sample and core analysis, all types of electric, etc.), format retained pressure tests, and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. All attachments should be listed on this form, see Item 86.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 10: Indicate which elevation is used as reference (where not otherwise shown) for depth measurements given in other spaces on this form and in any attachments. Submit a separate report (page) on this form, adequately identified, showing the interval reported in item 88. Submittal of a separate report (page) on this form, adequately identified, showing the additional data pertinent to such interval.

Interval, or interval, top(s), bottom(s), and

For each additional interval to be separately produced, show the multiple stage separating and the location of the cementing pool.

See Section B above. Attached supplemental records for this interval to be separately produced. (See instruction for items 22 and 24 above.)
