Re: El Paso Natural Gas Company Well  
Rincon Unit No. 166  
Unit K - Sec. 32, T-27-N, R-6-W  
Rio Arriba County, New Mexico

Dear Mr. Arnold:

A production casing failure was found to exist in the referenced well early in 1965, and a bad section of casing was found from 2300' to 2510' with a casing inspection survey.

Remedial action, as outlined in the enclosed NMOCC Form C-103, was completed on April 14, 1965. This remedial action meets the requirements for a satisfactory repair job as presented in the NMOCC Memorandum No. 3-70, dated May 15, 1970.

Yours very truly,

*W. D. Dawson*
