Re: Packer-Leakage Test
San Juan 27-5 Unit #24 (PM)
B-32-27N-5W

Dear Mr. Stauffer:

The pressure changes of the Pictured Cliffs zone of the subject well during the 1970 annual packer-leakage test indicate possible communication. (Copy attached)

Please cause the well to be retested in such a manner that will prove either zone separation or communication.

If there are questions, please contact us.

Yours very truly,

A. R. Kendrick
