Attn: Mr. Clyde Phillips

Re: Temporary Abandonment, Dakota Zone, Champlin #8, J-25-27N-4W

Dear Mr. Phillips:

Your plan to shut in and temporarily abandon the Dakota zone of the above dually completed well is hereby approved.

It should be understood that a packer leakage test must be conducted annually to insure that the zones remain separated and that the casing has not failed.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
