proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)

Union assumed operation of this well from El Paso Natural Gas Company
in May 1986. Unknown to Union and without Union's consent, El Paso
recently removed all surface production facilities. Union intends
to reactivate this well; however, requests a temporary one year shut-in
status in order to evaluate the well since it has not produced
since March 1986.
