TOOLS USED

Rotary tools were used from 0 feet to 4810 feet, and from 4810 feet to 5548 feet Gas Drilling
Cable tools were used from _____ feet to _____ feet, and from _____ feet to _____ feet

DATES

-----October 30-----, 1954 Put to producing -----, 19-----

The production for the first 24 hours was barrels of fluid of which% was oil;% emulsion;% water; and% sediment. Gravity. °Bé.

If gas well, cu. ft. per 24 hours 2,327,000 Gallons gasoline per 1,000 cu. ft. of gas

Rock pressure, lbs. per sq. in. ----- 1110 -----

EMPLOYEES

_____, Driller _____ Driller

NEW AND USED TO GO

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
