	Landing jobs, contents
t is intended to drill & duel count	tie a well in the Pichared Cliffs formation
t is intended to drill & duel count	tie a well in the Pichared Cliffs formation
t is intended to drill & duel craple can Varde formation. Had circulation	tte a well in the Pictured Cliffe formation will be used them the Pictured Cliffe for
t is intended to drill & duel completes Verde formation. Mad circulation in a set intermediate ensing. One	ete a well in the Pictured Cliffs formation on will be used thru the Pictured Cliffs for circulation will be used thru the Norm Nor
t is intended to drill & duck completes Verde formation. Mad circulation à set intermediate easing. Cos a production liner will be set. P	tte a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Meca Versasible productive intervals will be werfor
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate ensing. One a production liner will be not. Performed. Estimated Total Repth	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Mona Versasible productive intervals will be perfect
t is intended to drill & duel craple can Varde formation. Mad circulation ion & set intermediate ensing. One a production liner will be not. Po fractured. Estimated Total Repth (seing Program:	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Noon Verseible productive intervals will be performance.
t is intended to drill & duel crumle can Varde formation. Mad circulation ion & set intermediate ensing. Gas a production liner will be set. Pr fructured. Estimated Total Bapth ; saing Program: 10-3/4" at 170' with 12	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Nota Vereschie productive intervals will be perfection. 5 sacks coment circulated to the murface.
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate easing. Gas a production liner will be set. Performed. Estimated Total Bepth (seing Program: 10-3/4" at 170' with 12' 7-5/8" at 3425' with 256	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Moca Verbasible productive intervals will be performance. 5 sacks commute circulated to the surface. 6 sacks commute.
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate easing. One a production liner will be not. Pufrantured. Estimated Total Repth (seing Progress: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 2565-1/2" liner at \$660' with 2665-1/2" liner at \$660' with 2665-1/	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for circulation will be used thru the Mena Versaible productive intervals will be performable of the community
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate easing. One a production liner will be not. Perfectived. Estimated Total Repth (saing Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with 12: 10-8/2 of Section 13 is dedicated to	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Meca Vereschie productive intervals will be performable of the surface. 5 sacks commut circulated to the surface. 5 sacks commut. 6 the Mean Verds.
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate easing. One a production liner will be not. Perfectived. Estimated Botal Repth (saing Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with 250 at \$120 of Section 13 is dedicated to HE/4 of Section 13 is dedicated to	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Meca Vereschie productive intervals will be performable of the surface. 5 sacks commut circulated to the surface. 5 sacks commut. 6 the Mean Verds.
t is intended to drill & duel completes Verde formation. Mad circulation ion & set intermediate easing. One a production liner will be set. Pufractured. Estimated Sotal Repth (seing Program: 10-3/4" at 170' with 12' 7-5/8" at 3425' with 2565-1/2" liner at \$660' with 250 per 10 per	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Meca Vereschie productive intervals will be performable of the surface. 5 sacks commut circulated to the surface. 5 sacks commut. 6 the Musa Verde.
t is intended to drill & duel cruple can Verde formation. Mad circulation ion & set intermediate ensing. Gas a production liner will be set. Pr fructured. Estimated Total Beyth; using Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with ce E/2 of Section 13 is dedicated to the NE/4 of Section 13 is dedicated to the NE/4 of Section 13 is dedicated to	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Mena Verensible productive intervals will be performable productive intervals will be performable seeks coment. It is seeks coment.
t is intended to drill & duel cruple can Verde formation. Mad circulation ion & set intermediate ensing. Gas a production liner will be set. Pr fructured. Estimated Total Beyth; using Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with ce E/2 of Section 13 is dedicated to the NE/4 of Section 13 is dedicated to the NE/4 of Section 13 is dedicated to	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Mena Verensible productive intervals will be performable productive intervals will be performable seeks coment. It is seeks coment.
is intended to drill & duel crupled on Verde formation. Mad circulation ion & set intermediate easing. Gas a production liner will be not. Perfruenced. Estimated Social Beyth haing Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with 256 5-1/2"	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Mena Verencible productive intervals will be perfection. 5 sacks coment circulated to the nurface. 5 sacks coment. 6 the Musa Verde. 6 the Musa Verde. 6 the Pictured Cliffs. 6 APR 19 1957 6 writing by the Geological Survey before our ations middle commenced.
is intended to drill & duel crupled on Verde formation. Mad circulation ion & set intermediate easing. Gas a production liner will be not. Perfruenced. Estimated Social Beyth haing Program: 10-3/4" at 170' with 12: 7-5/8" at 3425' with 256 5-1/2" liner at \$660' with 256 5-1/2"	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Mena Verencible productive intervals will be perfection. 5 sacks coment circulated to the nurface. 5 sacks coment. 6 the Musa Verde. 6 the Musa Verde. 6 the Pictured Cliffs. 6 APR 19 1957 6 writing by the Geological Survey before our ations middle commenced.
t is intended to drill a duel crupled on Verde formation. Mad circulation ion a set intermediate easing. Ges a production liner will be met. Professional liner at 170' with 12' 7-5/8" at 170' with 12' 7-5/8	the a well in the Pictured Cliffs formation will be used thru the Pictured Cliffs for airculation will be used thru the Meca Vereschie productive intervals will be perfection. 5 sacks coment circulated to the murface. 5 sacks coment. 6 the Mean Verds. 6 the Mean Verds. 6 the Pictured Cliffs. 6 APR 19 1957 6 writing by the Geological Survey before or rations middle commenced.
