Re: Correct locations of San Juan 28-6  
Unit No. 79 (PM) and San Juan 27-4  
Unit No. 17 (PM) Wells on Dual  
Completion Applications.

Gentlemen:

In regard to your letter of August 20, 1958, the locations of Well No. 79 (PM) and Well No. 17 (PM) were reversed. However, the error was in the location plats, rather than in the applications as was assumed by you.

The plats have been re-drawn, showing the correct locations for each well, and I am enclosing the corrected copies of the location plats, as well as the original Dual Completion Applications.

Yours very truly,
