DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This well was originally drilled by Pacific Northwest Pipeline Corp. as the San Juan 27-5 Unit #14-11. This well is within the limits of the San Juan 27-5 Unit; therefore, El Paso Natural Gas will be the operator with name changed to the El Paso Natural Gas San Juan 27-5 Unit #14.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
