RE: SJU 27-5 #1, P-04-27N-05W

Dear Susan:

The enclosed copy of the 1992 Bradenhead Test on the referenced well is incomplete in that bradenhead pressure and results of bradenhead flow were not recorded. If this information is available, please resubmit the test. If not, the well must be retested as soon as possible. The incomplete information received indicates the well probably has a casing failure.

Yours truly,

Charles Gholson
Deputy Oil & Gas Inspector
