17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We are resubmitting this notice to complete our records on the subject well. We are unable to locate an approved copy of this workover. On August 18, 1983, work was completed to set a cement retainer to isolate a casing failure in the well. The cement retainer was set at 7302' and stung into with production tubing run back to surface. We have been unsuccessful in subsequent swabbing attempts to restore the well to production. We request approval to continue working with the well until production is established.
