17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was drilled to total depth w/gas (8115'), logging tools would not go below 8040'. Drill string was stuck at 6935' in clean out attempt.

Due to the above junk in the hole, it is intended to plug back w/cement in the following manner:

Pump 175 sacks cement w/4% gel through the drill string to plug the open hole 6935 - 8115', back off drill string at free point, spot 100 sack cement plug on top of fish, sidetrack fish and re-drill to approximately 8100'.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
