Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are set down below or will be issued by or may be obtained from the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State Offices. In addition, such proposals and reports should include reasons for the abandonment; data for the abandonment; data for the present production zone; or other zones with present significant fluid contents not sealed off by cement or otherwise; depths (top and bottom) and method of plugging; amount of cement plug; mud or other material placed below, between and above plugs; amount, size, method of partition of any casing; inner or tubing pulled and the depth to top of any left in the hole; method of closing top of well; and data on well site conditioned for final inspection looking to approval of the abandonment.
