Dear Mr. Florance:

Information filed in this office indicates that the above well was spudded on November 6, 1968 and that surface casing was cemented at 315 feet. No further information has been received.

Will you please file Sundry Report, 9-331, and Federal Well Record Form 9-330 with the U. S. G. S. office in Durango, Colorado indicating final disposition of the well? If the well has been plugged and abandoned, please file five copies of the Subsequent report of abandonment with the Durango office of the U. S. G. S. also. They will forward two copies to us.

Thank you.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
