(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

It is proposed to prepare this wellbore for temporary abandonment by the following procedure:

1. Set CIBP between 50 and 100 feet above top perforation
2. Spot 35 feet of cement on top of CIBP
3. Fill casing with packer fluid
4. Notify BLM 48 hrs. in advance of pressure test
5. Pressure test casing to 500 psi for 30 minutes

A recompletion to the Mesaverde in this wellbore will be proposed when working interest complications have been resolved later this year. In the meantime, this wellbore will be temporarily abandoned in anticipation of the recompletion action.

THIS APPROVAL EXPIRES NOV 01 1996

14. I hereby certify that the foregoing is true and correct
