17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The Chacra zone of this well was permanently plugged and abandoned on October 26, 1981, by spotting a 32 cu. ft. cement plug in Chacra to cover perforations and fill the casing to 100 ft. above the Pictured Cliffs formation top. The well was then shut in at the master valve. The Pictured Cliffs zone will be produced as is until depleted, at which time permanent abandonment of both zones will be completed.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
