Gentlemen:

Submitted herewith for administrative approval is Application for Dual completion for our Breech well 382 (PCC), Unit N of Section 24, 26 North 7 West, Rio Arriba County, New Mexico.

Initial Packer Leakage tests just completed indicate good separation of Pictured Cliffs and Chacra zones.

Copies of this application have been mailed to operators of leases offsetting this well.

Yours very truly,

*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

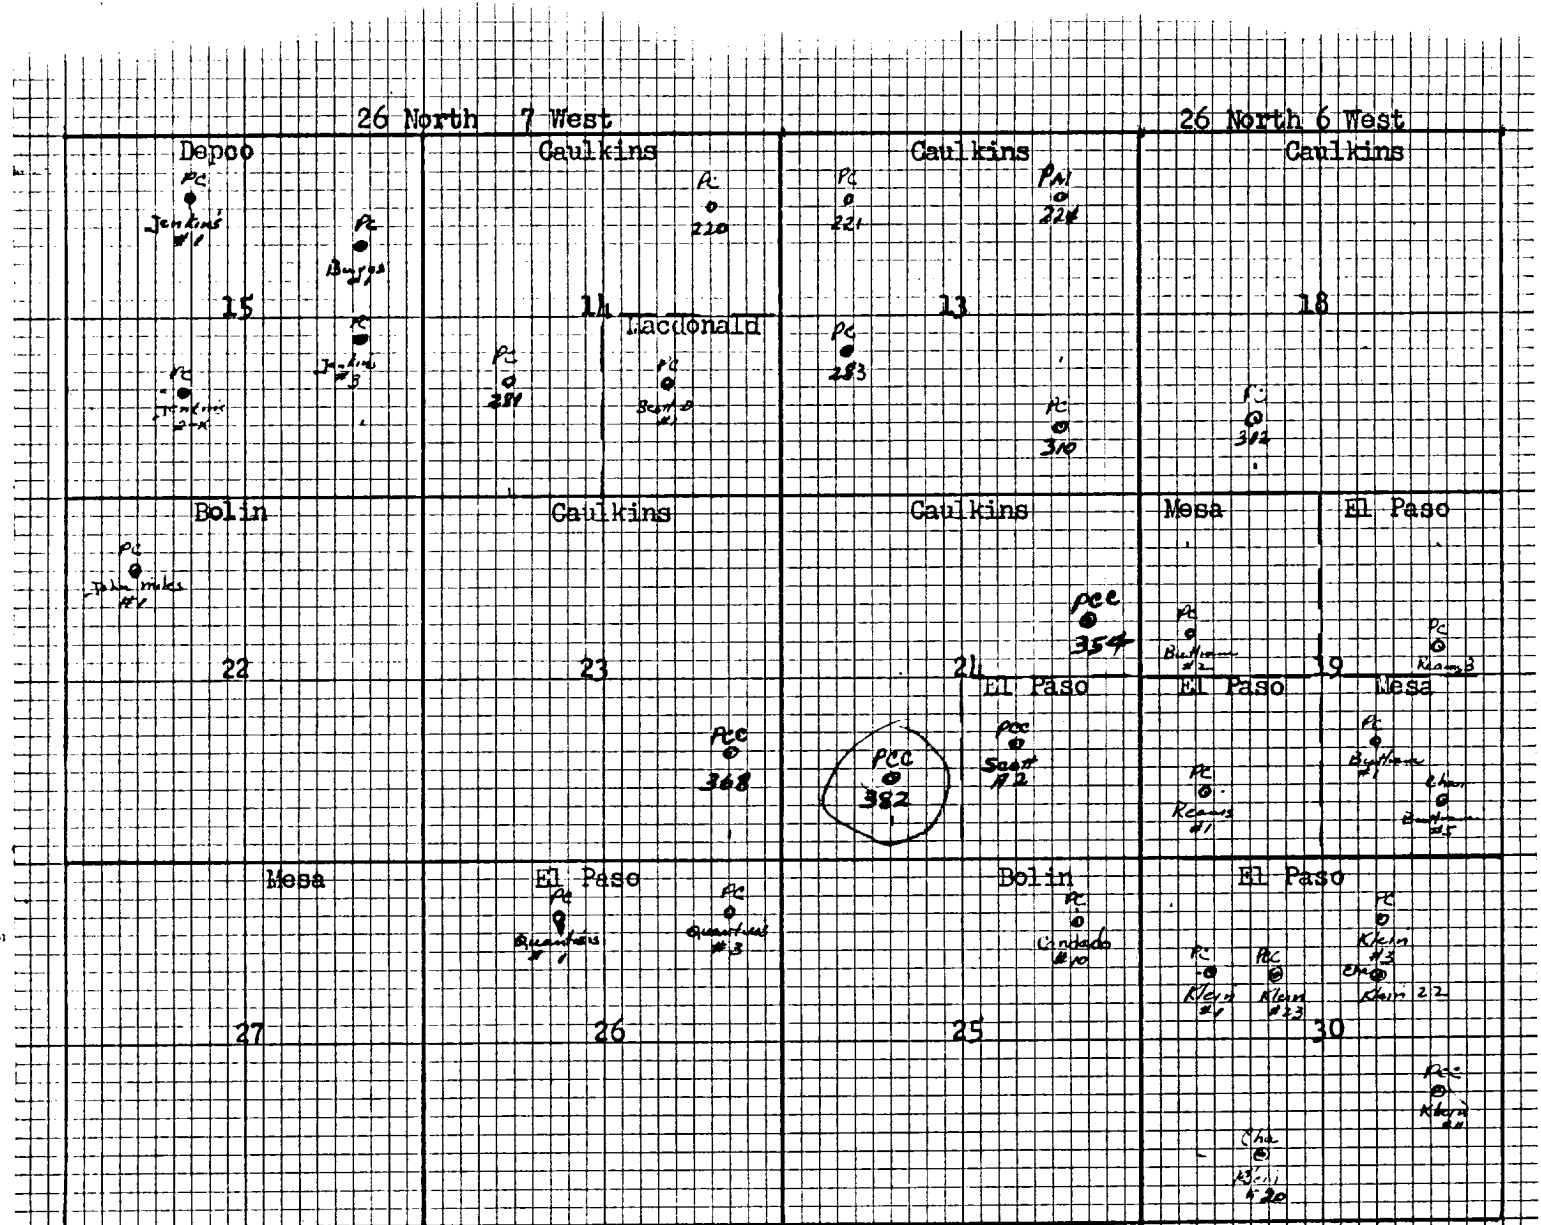

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
