New Mexico Oil Conservation Commission  
Post Office Box 2088  
Santa Fe, New Mexico

Gentlemen:

Submitted herewith for administrative approval is Application for Dual Completion for our Breech well 368 (PCC), Unit I of Section 23, 26 North, 7 West, Rio Arriba County, New Mexico.

Initial Packer Leakage tests just completed indicate good separation of the Pictured Cliffs and Chacra zones.

Copies of this application have been mailed to operators of leases offsetting this well.

Yours very truly,

A handwritten signature in cursive script that reads "Charles E. Verquer".

| <input checked="" type="checkbox"/> | <input type="checkbox"/> | a. Diagrammatic Sketch of the Multiple Completion, showing all casing strings, including diameters and setting depths, centralizers and/or turbolizers and location thereof, quantities used and top of cement, perforated intervals, tubing strings, including diameters and setting depth, location and type of packers and side door chokes, and such other information as may be pertinent. |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | b. Plat showing the location of all wells on applicant's lease, all offset wells on offset leases, and the names and addresses of operators of all leases offsetting applicant's lease.                                                                                                                                                                                                         |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | c. Waivers consenting to such multiple completion from each offset operator, or in lieu thereof, evidence that said offset operators have been furnished copies of the application.*                                                                                                                                                                                                            |
| <input checked="" type="checkbox"/> | <input type="checkbox"/> | d. Electrical log of the well or other acceptable log with tops and bottoms of producing zones and intervals of perforation indicated thereon. (If such log is not available at the time application is filed it shall be submitted as provided by Rule 112-A.)                                                                                                                                 |

5. List all offset operators to the lease on which this well is located together with their correct mailing address.

El Paso Natural Gas Company, P.O. Box 990, Farmington, New Mexico 87401

Depco Inc., 825 Petroleum Club Bldg., Denver, Colorado 80202

MacDonald Oil Corp., P.O. Box 5402, Midland, Texas 79701

Bolin Oil Company, 1120 Oil and Gas Bldg., Wichita Falls, Texas 76701

Mesa Petroleum Corp., P.O. Box 2009, Amarillo, Texas 79105

Cenard Oil Company, P.O. Drawer 446, Dallas, Texas 75221

6. Were all operators listed in Item 5 above notified and furnished a copy of this application? YES ☒ NO ☐ . If answer is yes, give date of such notification 12-5-74 .

CERTIFICATE: I, the undersigned, state that I am the Superintendent of the Caulkins Oil Company (company), and that I am authorized by said company to make this report; and that this report was prepared under my supervision and direction and that the facts stated therein are true, correct and complete to the best of my knowledge.

Charles E. Jorgensen  
Signature

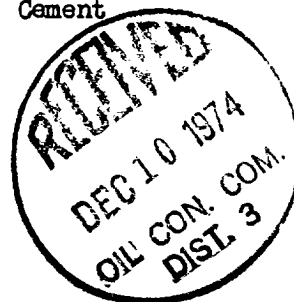

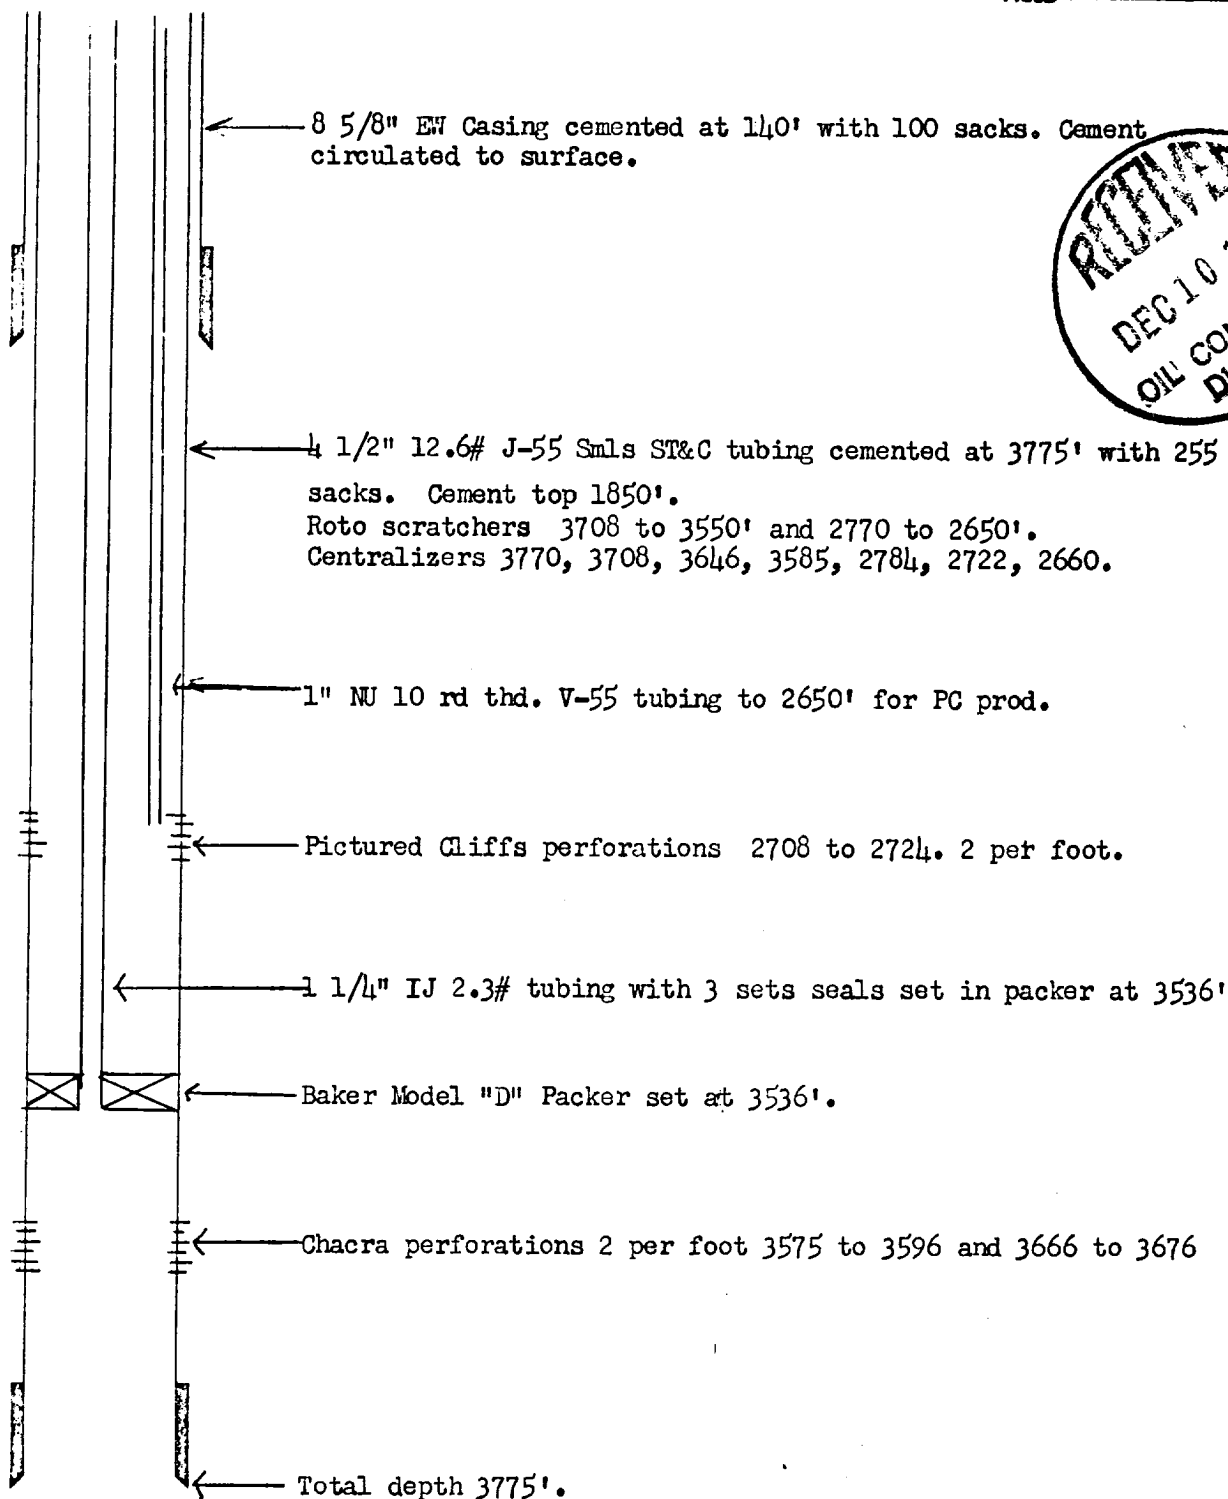

\*Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed multiple completion will result in an unorthodox well location and/or a non-standard perforation unit in one or more of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
