17. DESCRIBE PURPOSE OR COMPLETION OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and casing well-vent to this work.)

4-16-91

Approximately 9:00 A.M., our field-man discovered well-head leaking gas to atmosphere. Upon further examination it was determined an unknown vehicle with dual tracks had bumped well-head hard enough to bend and break 5 1/2" casing type well-head.

Equipment to kill well and replace well-head were dispatched to location. Well-head pressure was released as a safety measure until well could be killed. Well was killed by 1:00 P.M. 4-16-91.

New well-head installed and repairs completed by 4:30 P.M. 4-16-91.

Estimated 50 MCF gas vented to atmosphere prior to killing well.
