Re: Application for Permit to Drill  
San Juan 27-4 Unit #130  
NWSW/4 Section 15, T-27-N, R-4-W  
Basin Dakota

Dear Mr. Long:

Details regarding existing roads, pipelines, wells, etc. relative to the above well location are included on the previously submitted base maps, "Field Road Map" and "Composite Map No. 1".

The proposed new well location and new roads are shown on the attached plat along with connecting existing roads and pipelines in the vicinity of the proposed new well. The pipelines are not shown since they have not yet been approved by the Forest Service.

Water for drilling and completion operations will be obtained from the following location: Vega Water Hole, Section 18, T-27-N, R-4-W.

Waste material will be disposed of by burial in the burn pit, latrine, or reserve pit as applicable. There will be no camp nor air strip associated with drilling this well. Upon completion or abandonment of this well, the location will be cleaned and leveled and a dry hole marker placed, if applicable.

Yours very truly,

D. G. Brisco  
Drilling Clerk
