DESIGN OF PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Texaco Inc. requests your approval for an extended shut in status for the Pork Chop #1. The well is capable of producing gas in paying quantities, however, due to the poor gas market demand, the purchaser has requested the well be shut in indefinitely. The integrity of the casing is believed to be good. The last Bradenhead test submitted was June '86. A visual inspection June 16, 1988 indicated no flow or problems. The Pork Chop lease is comprised of 2 wells, the Pork Chop #2 produces monthly to maintain the lease.
