

NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

8-27N-4W

I, Robert Griffiee, being of lawful age and having full  
*Name of party making report*  
knowledge of the facts hereinbelow set out do state:  
That I am employed by El Paso Natural Gas Company in the capacity of  
Petroleum Engineer, that on November 15th, 19 80  
I personally supervised the setting of a Baker Model G Seal Assembly in P.B.R.  
*Make & type of packer*  
in EPNG, San Juan 27-4 Unit,  
*Operator of well* *Lease name*  
Well no. 125A (PM) located in the Tap. PC Ext. & Blanco MV field,  
Rio Arriba county, state of New Mexico, at a subsurface depth of  
3969 feet, said depth measurement having been furnished me by  
Pipe Record;  
That the purpose of setting this packer was to effect a seal in the annular space between two  
strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well,  
of fluids produced from a stratum below the packer with fluids produced from a stratum above the  
packer; that this packer was properly set and that it did, when set, effectively and absolutely seal  
off the annular space between the two strings of pipe where it was set in such manner as to  
prevented any movement of fluids across the packer.

*Robert R. Griffiee*
