Rio Arriba Co., NM

Dear Ms. Cole:

Reference is made to your application for down hole commingling of Mesaverde and Pictured Cliffs production from the above referenced well. After reviewing the information you supplied in your application and the production history for both zones, you are hereby authorized to commingle production in accordance with the fixed allocation factors outlined below:

<u>Formation</u>	<u>Gas</u>	<u>Oil</u>
Mesaverde	67%	100%
Dakota	33%	0%

Commingled production from each zone must be reported in accordance with these established allocation factors. The effective date of commingling will be the date commingling first occurs.

If you have any questions regarding the above, contact Jim Lovato at (505) 599-6367.

Sincerely,

/s/ Errol Becher
