Dear Ms. Silseth:

The 2001 Packer Leakage Test on the referenced well indicates communication between the producible zones. In order to comply with Rule #112A, you are hereby directed to initiate remedial activity and retest the well to show separation of the zones prior to September 1, 2001. Notify the Aztec OCD in time to witness the retest.

If you have any questions, please call me at 505-334-6178, ext. 16.

Sincerely,
