

NEW MEXICO OIL CONSERVATION COMMISSION  
PACKER SETTING REPORT

I, L. J. Biemer Jr., being of lawful age and having full  
*Name of party making report*  
knowledge of the facts hereinbelow set out do state;

That I am employed by Meridian Oil Production Inc. in the capacity of  
Petroleum Engineer, that on December 27, 1985

I personally supervised the setting of a Baker Model D  
*Make & type of packer*

in El Paso Natural Gas Company, San Juan 27-5 Unit Sec. 20  
*Operator of well* *Lease name*

Well no. 139M located in the Blanco Mesa Verde/Basin Dakota field,

Rio Arriba county, state of New Mexico, at a subsurface depth of

5921 feet, said depth measurement having been furnished me by

Pipe Record;

That the purpose of setting this packer was to effect a seal in the annular space between two strings of pipe where the packer was set so as to prevent the commingling, in the bore of this well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer; that this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.
