OIL CON. DIV.
DIST. 2

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well was shut-in on 4 January 1995. At this time there is no pipeline to connect this well to market. Permission is requested to allow this well to be shut-in until such time as additional flow testing can be performed during non-winter conditions and a determination can be made regarding cost effectiveness of installing a pipeline. At this time it is anticipated that this information can be obtained by the end of August 1995.

Shut in since after on 14 December 91, 1995.

14. I hereby certify that the foregoing is true and correct
