Well No. **72** is located **990** ft. from **N** line and **990** ft. from **W** line of sec. **29**

NW/4 Section 29 27-N 5-W N.M.P.M.

So. Blanco Pictured Cliffs Rio Arriba New Mexico

The elevation of the derrick floor above sea level is **6550** ft.

DETAILS OF WORK

State names of the proposed depth of the well, size, weight, and length of proposed casing, indicate including of cement, log, and all other important proposed work.

It is intended to Plug & Abandon this well in the following manner:

1. Recover casing head.
2. Weld a 1/2" plate on top of surface pipe, with 4" x 4' dry hole marker welded to plate.

Note: This well was drilled 5-21-62 to a T.D. of 135' and 8 5/8" casing was cemented top to bottom with a small amount of cement left in bottom of casing. The casing is full of water to the surface.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
