THIS IS AN AMENDED REPORT. CHECK THE BOX LABLED MENDED REPORT" AT THE TOP OF THIS DOCUMENT

aport all gas volumes at 15,025 PSIA at 60°, aport all oil volumes to the nearest whole barrel.

request for allowable for a saviy drilled or deepened well must be accompanied by a tabulation of the deviation tests conducted in accordance with Rule 111.

I sections of this form must be filled out for allowable requests on w and recompleted wells.

I out only sections I, II, III, IV, and the operator certifications for ranges of operator, property name, well number, transporter, or her such changes.

separate C-104 must be filed for each pool in a multiple impletion.

properly filled out or incomplete forms may be returned to erators unapproved.

Operator's name and address

Operator's OGRID number. You do not have one it will be assigned and filled in by the District office.

Reason for filing code from the following table:

NW

Recompletion

CHOCA

CĞ

Recompision
Change of Operator
Add oil/condensate transporter
Change oil/condensate transporter
Add ges transporter
Change gas transporter
Request for test allowable (incompany) for test allowable (Include volume

requested

If for any other reason write that reason in this bex.

The API number of this well

The name of the pool for this completion

The pool code for this pool

The property code for this completion

The property name (well name) for this completion

The well number for this completion

The surface location of this completion NOTE: If the United States government survey designates a Lot Number for this location use that number in the 'UL or let no.' bex. Otherwise use the OCD unit letter.

The bottom hole location of this completion

Lease code from the following table:

Federal Š State Fee

Jicarilla

Navajo Ute Mountain Ute Other Indian Tribe

The producing method code from the following table:

Flowing Pumping or other artificial lift

MO/DA/YR that this completion was first connected to a gae transporter

The permit number from the District approved C-129 for this completion

MO/DA/YR of the C-129 approval for this completion

MO/DA/YR of the expiration of C-129 approval for this

The see or oil transporter's OGRID number

Name and address or the transporter of the product

The number assigned to the POD from which this product will be transported by this transporter. If this is a new well or recompletion and this POD has no number the district office will assign a number and write it here.

Product code from the following table:

a

Oil Gas

- 22. The ULSTR location of this POD If it is different from the well completion location and a short description of the POD (Example: "Battery A", "Jenes CPD", atc.)
- 23. The P(3) number of the storage from which water is moved from the property. If this is a new well or recompletion and this POD has no number the district office will easign a number and write it here.
- The ULSTR location of this POD if it is different from the well completion i cation and a short description of the POD (Example: "Bettery A Water Tank", "Jones CPD Water Tank", etc.) 24.
- MO/DA/YR drilling commenced 25.
- MO/DA/YR this completion was ready to produce 26.
- 27. Total vertical depth of the well
- 22 Plushack vertical death
- 29. Top and bottom perforation in this completion or casing shoe and TD H openhole
- 30 Incide diameter of the well bore
- 31. Outside diameter of the casing and tubing
- 32. Depth of casing and tubing. If a casing liner show too and
- Number of seaks of coment used per easing string

The following test data in for an oil well it must be from a test conducted only after the total volume of load all is recovered.

- MO/DA/YR that new all was first produced
- 35. MO/DA/YR that cas was first produced into a pisaline
- 34. MO/DA/YR that the following test was completed
- 37 Length in hours of the test
- 38. Flowing tubing pressure - oil wells Shut-in tubing pressure - gas wells
- 39. Flowing casing pressure - all wells Shurt-in casing pressure - gas wells
- 40. Diameter of the choke used in the test
- 41. Barrels of oil produced during the test
- 42. Barrols of water produced during the test
- 43. MCF of gas produced during the test
- 44. Gas well calculated absolute open flow in MCF/D
- 45. The method used to test the well: F Flowing
 P Pumping
 S Swabbing
 H other mathed please write it in.
- The signature, printed name, and title of the person authorized to make this report, the date this report was signed, and the telephone number to call for questions about this report 44.
- The previous operator's name, the signature, printed name, and title of the previous operator's representative authorized to verify that the previous operator ne langer operators this completion, and the date this report was signed by that person 47.
