Cabinet Secretary

**Lori Wrotenbery**  
Director  
Oil Conservation Division

March 15, 2001

**Burlington Resources Oil & Gas Company**  
P. O. Box 4289  
Farmington, New Mexico 87499-4289  
Attention: Peggy Cole

Telefax No. (505) 326-9833

*Administrative Order NSL-4564*

Dear Ms. Cole:

Reference is made to the following: (i) your initial application submitted to the New Mexico Oil Conservation Division ("Division") on February 16, 2001; and (ii) the Division's records on Aztec and Santa Fe: all concerning Burlington Resources Oil & Gas Company's ("Burlington's") request for an exception to the well location requirements provided within the "Special Rules and Regulations for the Basin-Dakota Pool," as promulgated by Division Order No. R-10987-B, issued in Case No. 12290 dated June 30, 2000 for a non-standard infill gas well location within an existing standard 320-acre stand-up gas spacing and proration unit for the Basin-Dakota Pool comprising the W/2 of Section 8, Township 27 North, Range 4 West, NMPM, Rio Arriba County, New Mexico. This unit is currently dedicated to Burlington's San Juan "27-4" Unit Well No. 42 (API No. 30-039-20132), located at a standard initial gas well location 1500 feet from the South line and 1550 feet from the West line (Unit K) of Section 8.

The application has been duly filed under the provisions of Division Rules 104.F and 605.B.

By the authority granted me under the provisions of Division Rule 104.F (2), the following described well to be drilled at an unorthodox infill gas well location in Section 8 is hereby approved:

**San Juan "27-4" Unit Well No. 42-M**  
2405' FNL & 475' FWL (Unit E) 8-27N-4W  
(API No. 30-039-26377)

Further, both of the aforementioned San Juan "27-4" Unit Wells No. 42 and 42-M and existing gas spacing and proration unit will be subject to all existing rules, regulations, policies, and procedures applicable to prorated gas pools in Northwest, New Mexico.

Sincerely,

Lori Wrotenbery  
Director
