If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Texaco is requesting an extended shut-in period for this well. Line pressures in the area will not allow the well to produce. In addition, the well sells gas on contract and is currently shut-in with no demand. The lease has been evaluated for compression and is currently on a property sales list. Pending the outcome of this sale, Texaco will sell this lease, return the well to production or abandon the lease.

If you have any questions concerning this sundry please contact Mr. Darren Segrest at (505) 325-4397.
