- Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

## 13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

10/2/96 TOH with tubing. Ran gauge ring to 2800'. Set CIBP at 2728'. Loaded hole with water to test casing. Test failed.

We are currently waiting on partner approval to determine if the casing has a hole or the CIBP is leaking. It is intended to run tubing and packer to isolate the leak. It will then be determined to continue the workover or plug and abandon the wellbore.
