DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Drilled 13-3/4" hole to 215' KB. Ran 5 joints 9-5/8" Aruco casing. Landed at 214' KB and cemented with 200 sac regular Portland Cement. Displaced to 194' KB with good returns to surface. Waited 24 hours, then tested. Cement held ok.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
