Re: Hodges #2 P-28-26N-8W

Gentlemen:

A recent field inspection reveals that gas is surfacing outside the surface pipe and all over the location at the referenced well, apparently from a shallow casing leak. All vegetation on location is dead indicating this has been happening for some time.

In order to prevent waste and protect the environment, you are directed to take immediate remedial action.

If you have any questions, please call this office.

Yours truly,

A handwritten signature in cursive script, appearing to read "Charles Gholson".
