Re: Plugging Programs for P. L. Davis #1, A-26-26N-11W
 and P. L. Davis #2, L-26-26N-11W ✓

Dear Mr. Rovenko:

The plugging program for the P. L. Davis #1 is as follows:

PB to 5970
 5700 to 5100
 2500 to 2400 Perforate & Squeeze (perforate at bottom of plug)
 1750 to 1600 Perforate & Squeeze (perforate at bottom of plug)
 1150 to 1050 Perforate & Squeeze (perforate at bottom of plug)
 750 to 650 Perforate & Squeeze (perforate at bottom of plug)
 320 to 220
 10 sks at top with dry hole marker

The plugging program for the P. L. Davis #2 is as follows:

PB to 5580
 5100 to 5000
 2450 to 2300 Perforate & Squeeze (perforate at bottom of plug)
 1650 to 1480 Perforate & Squeeze (perforate at bottom of plug)
 750 to 650 Perforate & Squeeze (perforate at bottom of plug)
 370 to 270 Perforate & Squeeze (perforate at bottom of plug)
 10 sks at top with dry hole marker

If I can be of any further service, please contact this office.

Yours truly,

Jeff A. Edmister
 Geologist/Field Representative
