17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1705.

Due to non-commercial production and to non-economical workover conditions it is intended to plug and abandon this well in the following manner:

Spot 50 sack cement plug down the tubing from 1855' to 2075'.

Determine free point of 7" casing. If there is enough casing free to be economical to recover, shoot off casing at the free point.

If casing is shot off, spot 30 sack cement plug on casing stub. Pull casing.

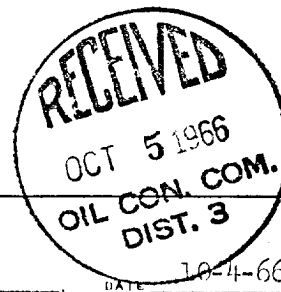

Put 10 sack cement plug in top of surface casing and install 4" x 4' permanent plug and abandonment marker.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
